Core Maths Pre-Release Discussion Meetings

Academic year: 2026–27

Overview

Join fellow teachers delivering the same specification to explore this year's pre-release material. These meetings provide an opportunity to exchange ideas, resources, and strategies for supporting students as they prepare for assessment.

These meetings are designed for all teachers currently delivering Core Maths. You'll participate in discussions about the specific assessment challenges students may encounter, and share practical classroom approaches.

Features of the sessions:

- 1 online session for each of the major Core Maths qualifications: AQA, OCR and Edexcel.
- Sessions are collaborative in nature, led by participants alongside AMSP facilitators.
- Each session runs for 2 hours

Session dates

Each online meeting will run for **two hours**. All meetings will be held on **Zoom**.

Sessions are delivered separately for each specification to ensure discussions remain relevant and focused. Teachers should select a session that matches the specification they teach..
