Advanced Mathematics Support Programme

MEI® Because maths matters!

Core Maths Specification Networks

Academic year: 2026–27

Overview

A supportive network for teachers delivering Core Maths to share ideas, discuss classroom practice and connect with colleagues following the same specification.

suitable for both new and experienced teachers, sessions are shaped by participants' priorities and facilitated by an AMSP Core Maths Champion.

Features of the networks:

- Regular online network sessions across the academic year, facilitated by an AMSP Core Maths champion
- Choose from the following specification networks: AQA 2A, AQA 2B, AQA 2C, OCR and Edexcel*
- Access to a professional community teaching the same specification

*Please note that there are two options for AQA 2A due to the large numbers of teachers who follow this specification.

Session information

Each session provides the opportunity to explore common challenges, share effective approaches, and reflect on what works in practice.

Sessions will be held in **four rounds of networks per academic year**, all hosted on **Zoom**.

Please view all the specification network dates for 2026-27 on Page 2.

Format	Duration	Time
Online	1.5 hours	16:00-17:30

What will you gain?

Sharing Best Practice - Build confidence in addressing common challenges through shared discussion and expert facilitation.

Strengthening Core Maths in your school/college - Explore strategies and classroom approaches that can support the effective delivery of Core Maths in your establishment.

Collaborative Professional Growth - Gain insight from peers teaching the same specification to broaden your understanding and practice.

Eligibility

All teachers are eligible for a free place on this course. Priority will be given to teachers in state-funded schools and colleges in England.
