Advanced Mathematics Support Programme

MEI®
Because maths matters!

Growing your Core Maths Numbers

Academic year: 2026–27

Overview

Discover effective strategies for attracting more students to Core Maths at your school or college.

This webinar will help you communicate the value of Core Maths and inspire greater student interest.

You'll learn proven recruitment techniques, such as hosting open evenings, running taster sessions, and building connections with other subjects. By the end, you'll have a toolkit of practical strategies, engaging activities, and useful resources to boost student recruitment.

Features of the webinar:

- One stand-alone webinar
- Information about additional government funding incentives
- Introduction to available resources such as the Core Maths Platform

Webinar dates

The webinar runs for **1.5 hours** delivered via **Zoom**.

It will run twice during the academic year, taking place in both the Spring and Summer terms, and will use the same content each time.

Cohort	Date	Time
Spring webinar	Thursday, 21 January	16:00–17:30
Summer webinar	Wednesday, 12 May	16:00–17:30

What you will learn

Sharing Approaches - Review effective practice from other schools and colleges, and explore approaches you can adapt to increase Core Maths uptake in your own setting.

Hearing from the research - Use findings from recent research to strengthen how you present the value and impact of Core Maths to students, parents and colleagues.

Resources and communication - Find out how to communicate the benefits of Core Maths clearly and make the most of the resources and incentives available to support recruitment.

Eligibility - all teachers are eligible for a free place for this course. However, priority will be given to teachers in state-funded schools and colleges in England. Where we have spare capacity, we extend our support to other teachers and operate a waiting list.
