## Year 13 Regular Problem Solving Classes

### Milton Keynes

22nd October 2019

#### Overview

A series of maths problem solving classes designed to develop students' problem solving skills so they have the confidence to apply for universities that include an admissions test as part of their offer.

These regular classes offer students the opportunity to develop their problem-solving skills by trying out challenging problems that require deep mathematical thinking, and so help them meet the challenges they may face in embarking on a maths-rich university course or career. The problems are fun and rewarding and attending the sessions will enrich a student's mathematical experience.

Students will look at problems from a range of sources including Sixth Term Examination Papers (STEP) used by Cambridge and Warwick Universities and the Mathematics Admissions Test (MAT) used by Oxford University and Imperial College, London.

#### Aims

- To develop confidence in dealing with maths problems
- To develop students' resilience when attempting maths problems
- To provide information about the problem solving skills required in university admissions tests
- To give students the opportunity to attempt problems both in groups and on their own
- To give students the opportunity to think about how solutions to problems are presented
- To provide students with the opportunity to explore areas of maths not in the standard curriculum
- To provide students with the opportunity to study questions from the STEP and the MAT examinations.

#### Who will benefit from attending?

The classes are suitable for any A level Mathematics student with an enquiring mind who wishes to develop their problem solving ability at A level and beyond.

They are particularly suitable for those students who are required to sit an admissions test as part of a university offer.

## Content

Students attending the classes will encounter problems covering a variety of topics. These include:

- Working with integers
- Reasoning and logic
- Sequences and series
- Induction
- Curve sketching and identification
- Coordinate geometry
- Vectors
- Trigonometry
- Complex numbers
- Integration
- Differential equations

## Materials and Equipment

Students will not require any special equipment for the classes although a smartphone with the GeoGebra or Desmos apps may be useful.

## Study Schedule

All classes take place on Tuesday afternoons, roughly fortnightly, from 4:00pm to 6:00pm. Dates are as follows:

22 October 2019, 5 November 2019, 19 November 2019, 3 December 2019, 17 December 2019, 7 January 2020, 21 January 2020, 28 January, 2020, 11 February 2020, 24 March 2020, 31 March 2020, 21 April 2020, 5 May 2020

## Key Facts

<b>Event ref:</b>	#6485
<b>Audience:</b>	Students
<b>Target year:</b>	Year 13
<b>Curriculum focus:</b>	University admissions tests, A level Mathematics, A level Further Mathematics
<b>Mathematical focus:</b>	Pure, Problem solving
<b>Event format:</b>	Student course
<b>Event length:</b>	20 hours
<b>Region:</b>	East of England
<b>Venue:</b>	Denbigh School, Burchard Crescent, Shenley Church End, Milton Keynes, MK5 6EX
<b>Next session:</b>	Tue 24th Mar 2020
<b>Course times:</b>	16:00 - 18:00

## Registration
