

Ranelagh Teacher Network

GCSE/A Level Transition - Working with Same Surface Different Deep Problems

24th October 2019

Overview

Ranelagh Teacher Network is an AMSP-funded project, allowing teachers of 11-16 and A level Mathematics to meet, collaborate and to share best practice. We meet termly and the programme is planned by teacher request. The meetings will be a mixture of formal and informal training events

Content

This is a new network which will meet 3 times per year.

The focus for the 3 meetings this year will be on improving the transition from KS4 to KS5.

In the first meeting we will be considering and discussing tasks from Craig Bartons website - Same Surface Different Deep Structure. There will be an opportunity to share your ideas and perhaps start to design your own tasks based on these ideas with a particular focus on moving from GCSE to A level Maths.

Light refreshments will be provided.

Materials and Equipment

If you already use SSDD tasks you might want to bring your favourite task to share with the group

Key Facts

Event ref:	#6496
