Finding out about Maths university admissions tests

Derby

5th February 2020

Overview

Do you know the difference between STEP, MAT and TMUA?

Do you want to receive the most up-to-date information about university admissions tests for Maths?

Do you feel confident that you could advise your Year 12 students about university admissions tests for Maths?

Do you wish to receive advice on how best to coach students who wish to take these tests?

Do you want your students to receive a taster of the kinds of stretching questions featured on these tests?

If you want answers to all of these questions and more, then this event is for you. This unusual event is both for staff and students.

Staff will be given lots of up-to-date information about university admissions tests and tips on how to coach students by Phil Chaffé, who is the AMSP's national coordinator with responsibility for student and teacher support for university admissions tests.

Meanwhile your Year 12 students will be gain experience in some of the kinds of questions which appear on these tests. They will also be given advice on applying to study Maths at university.

If you intend to bring more than 20 students, please email chris.luke@amsp.org.uk.

Aims

- To convey up-to-date information about university tests for Maths to both students and teachers.
- To give students and teachers some experience in tackling the sorts of questions which appear on these tests.
- To give coaching tips to teachers, and to convey information about further support.

Who will benefit from attending?

Teachers of sixth-form maths.

Heads of sixth-forms or teachers with responsibility about university admissions.

Mathematically ambitious Year-12 students who wish to stretch themselves and gain experience of university admissions tests and find out more about studying Maths at university.
