Teaching confidence intervals with confidence

Online

9th July 2020

Overview

This session will look at confidence intervals and ideas for teaching the concepts to students. The session will be of interest to teachers of AQA Core Maths but also for teachers who want to understand better what confidence intervals in education progress measures mean. No prior knowledge will be expected.

This webinar is one of an extensive series, taking place as part of our [Core Maths Online](#) Festival. The sessions are designed to appeal to all teachers of maths and, in some cases, teachers of other subjects. Each webinar is designed to stand alone and will last approximately 90 minutes.

Who will benefit from attending?

For KS5 teachers of Biology, Geography and Maths.

Speaker

Stella Dudzic

AMSP MEI Programme Leader for Curriculum and Resources

[? @StellaDudzic](#)

Materials and Equipment

During the session, there will be opportunities to ask questions via the chat function on the platform but microphones and webcams are not necessary.

Other Information

Those who sign up will be emailed in the days prior to the webinar and again on the day of the webinar with a link to the online meeting room.

Eligibility

This course is free for teachers from state-funded schools, colleges and academies in England. Teachers based in other parts of the UK or in independent schools and colleges may apply, but places will only be allocated if there is availability.

Cost

This course is free for teachers from state-funded schools, colleges and academies in England. Teachers based in other parts of the UK or in independent schools and colleges may apply, but places will only be allocated if there is availability.
