Using Excel to unlock large data

Online

14th July 2020

Overview

In our ever more data rich society, large data sets are increasingly available for us to use...but they are often not in the form we want!

This session will explain how to use Excel to make the data work for you - something both Core Maths and A level Maths students need to be able to do.

This webinar is one of an extensive series, taking place as part of our [Core Maths Online Festival](#). The sessions are designed to appeal to all teachers of maths and, in some cases, teachers of other subjects. Each webinar is designed to stand alone and will last approximately 90 minutes.

Who will benefit from attending?

This session is designed to appeal to Key Stage 4 & 5 teachers.

Speaker

Tom Rainbow

AMSP Core Maths Professional Development Lead

[? @CoreMathsTom](#)

Materials and Equipment

During the session, there will be opportunities to ask questions via the chat function on the platform but microphones and webcams are not necessary.

Other Information

Those who sign up will be emailed in the days prior to the webinar and again on the day of the webinar with a link to the online meeting room.

Eligibility

This course is free for teachers from state-funded schools, colleges and academies in England. Teachers based in other parts of the UK or in independent schools and colleges may apply, but places will only be allocated if there is availability.

Cost

This course is free for teachers from state-funded schools, colleges and academies in England. Teachers based in other parts of the UK or in independent schools and colleges may apply, but places will only be allocated if there is availability.
