

# Core Maths Online Support Group OCR A Online

10th February 2021

## Overview

Core Maths Online Support Groups are designed to provide you with the opportunity to discuss and share your experiences and develop your practice around the teaching of Core Maths with teachers who are in a similar position to you. This group is for teachers following the [OCR A](#) specification.

## Who will benefit from attending?

This group is designed for anyone already teaching Core Maths and following the [OCR A](#) specification. The groups will be led by participants, and we encourage you to attend if you like to share, discuss and collaborate. If you are looking for a course on Core Maths subject knowledge we suggest you consider our [8 week live online professional development course](#) or our [on demand professional development courses](#) for Core Maths.

## Content

The content of the session will be determined by the participants of the group. In the application form you will be asked what you would like to discuss which will support your teaching of L3 Core Maths and these responses will form the basis of the event. We encourage you to attend if you like to share, discuss and collaborate with others.

## Materials and Equipment

We aim to emulate as much of the 'face-to-face' experience as possible and hope that these groups will form supportive communities. Participants should expect to be proactive in communicating during sessions, so **the use of microphones is mandatory**. Additionally, we also strongly encourage you to attend with a web-cam.

## Other Information

Support groups will be limited in size and places will be issued on a 'first come, first served' basis. Teachers who sign up will be emailed in the days prior to the session and again on the day of the session with a link to the online meeting room.

## Cost

The sessions are free of charge to all teachers from state-funded schools and colleges.
