

AQA Level 2 Further Maths - An Overview

Online

30th November 2021

Overview

This session will introduce participants to the AQA Level 2 Further Maths course by addressing the following questions:

- What is the AQA Level 2 Further Maths course?
- Why should your students be offered the course?
- How could it be delivered?
- How does the new specification differ from the previous one?
- How much crossover is there with GCSE Mathematics?

In addition, we will explore the free resources available on Integral through your AMSP registration to support the teaching and assessment of the course.

Aims

- To help make teachers, subject leaders and senior leaders aware of the benefits of running AQA Level 2 Further Maths.
- To explore alternative delivery methods of the course.
- To familiarise teachers and subject leaders with the topics in the AQA Level 2 Further Maths course which go beyond the GCSE curriculum.

Who will benefit from attending?

- Do you know why you should be delivering this course to your students?
- Are you planning to start delivering the course soon?
- Did you teach the previous specification and want to update yourself on the changes in the new specification?

This session is aimed at both subject leaders and senior leaders who would like to know more about the benefits of teaching AQA Level 2 Further Maths and models for effective delivery of the course, and is also aimed at teachers who are new to the course to get a feel for what additional knowledge is required teaching beyond the GCSE Mathematics curriculum.

Materials and Equipment

The session will be on the Zoom platform. The link to the session will be emailed in the week before the session.

You are advised to use a headset or headphones with a microphone to provide the best sound quality and to prevent audio issues for other users. A laptop with a built-in webcam and microphone may be sufficient if you're in a quiet area but please take the time to check this before the session.

In order to fully participate in the meeting please be willing to use your camera and microphone, although if this is impossible the chat option will be available.

Other Information

This course will be followed by a series of topic specific sessions designed for teachers (and prospective teachers) of AQA Level 2 Further Maths to support both subject knowledge and pedagogy in the following areas:

- Algebraic Manipulation (inc. The Factor Theorem)
- Teaching Differentiation for Understanding
- Exploring Matrices
- Binomial Expansion
- Functions
- Proof
- Geometry
- Trigonometry

Teachers can sign up for as many or as few of these topic sessions as required.

Key Facts

Event ref:	#9127
Audience:	Teachers
Curriculum focus:	11-16 maths, A level Mathematics
Mathematical focus:	Curriculum planning
Event format:	Live Online Professional Development
Event length:	1.25 hours
Online sessions:	1
Region:	South West
Date:	Tue 30th Nov 2021
Course times:	16:30 - 17:45
