Year 13 Regular Problem Solving Classes

Cheltenham

4th February 2022

Overview

A series of maths problem solving classes designed to develop students' problem solving skills so they have the confidence to apply for universities that include an admissions test as part of their offer.

These regular classes offer students the opportunity to develop their problem-solving skills by trying out challenging problems that require deep mathematical thinking, and so help them meet the challenges they may face in embarking on a maths-rich university course or career. The problems are fun and rewarding and attending the sessions will enrich a student's mathematical experience.

Students will look at problems from a range of sources including Sixth Term Examination Papers (STEP) used by Cambridge and Warwick Universities and the Mathematics Admissions Test (MAT) used by Oxford University and Imperial College, London.

Aims

- To develop confidence in dealing with maths problems
- To develop students' resilience when attempting maths problems
- To provide information about the problem solving skills required in university admissions tests
- To give students the opportunity to attempt problems both in groups and on their own
- To give students the opportunity to think about how solutions to problems are presented
- To provide students with the opportunity to explore areas of maths not in the standard curriculum
- To provide students with the opportunity to study questions from the STEP and the MAT examinations.

Who will benefit from attending?

The classes are suitable for any A level Mathematics student with an enquiring mind who wish to develop their problem solving ability at A level and beyond.

They are particularly suitable for those students who are required to sit an admissions test as part of a university offer.

Content

Students attending the classes will encounter problems covering a variety of topics. These include:

- Working with integers
- Reasoning and logic
- Sequences and series
- Induction
- Curve sketching and identification
- Coordinate geometry
- Vectors
- Trigonometry
- Complex numbers
- Integration
- Differential equations

Materials and Equipment

If the classes are being held online, you will need access to suitable equipment. You are advised to use a headset or headphones with an inline microphone to provide the best sound quality and to prevent audio issues for other users. A laptop with a built-in webcam and microphone may be sufficient if you're in a quiet area but please take the time to check this before the session. BBB is designed to be used on a variety of platforms but you will get the best experience via a desktop or laptop computer, running either Google Chrome or Mozilla Firefox as the browser.

Note: Internet Explorer and Edge are not suitable currently.

Access to GeoGebra or desmos will also be useful.

Study Schedule

THESE CLASSES HAVE BEEN CANCELLED - YOU MAY BE INTERESTED IN THIS ONLINE COURSE INSTEAD [STEP Online | AMSP](#)

This course consists of six sessions in the spring term, and may be particularly beneficial for students preparing for STEP, as well as those wanting to develop problem solving skills more generally.

- 4 February
- 11 February
- 4 March
- 11 March
- 18 March
- 25 March

Key Facts

Event ref:	#9196
Audience:	Students
Target year:	Year 13
Curriculum focus:	University admissions tests, A level Mathematics, A level Further Mathematics
Mathematical focus:	Pure, Problem solving
Event format:	Student course
Event length:	20 hours
Region:	South West
Venue:	Pate's Grammar School, Princess Elizabeth Way, Cheltenham, GL51 0HG
Next session:	Fri 25th Mar 2022
Course times:	16:30 - 18:30

Registration
