Kent & Medway High Schools Year 8 Kahoot Quiz - Monday 13th December 2pm

Online

13th December 2021

Overview

We have the pleasure of inviting Year 8 students from Kent & Medway High Schools to take part in our online Kahoot Quiz, and have fun!

Who will benefit from attending?

Any student in Year 8 from a Kent or Medway High School is welcome to join the quiz. The number of teams is unlimited so schools can access this with as many Year 8 classes as they want and each class can set teams up in groups, pairs or as individually, that is fine. Each team will require access to Kahoot (mobile phone, laptop etc).

We have an identical event on Tuesday 14th December at 11am if that time suits. <https://amsp.org.uk/events/details/9292>

Content

The quiz will be based on maths content that is suitable for Year 8 students and the quiz will be accessible for all in this Year group.

Other Information

Once you have signed your school up we will provide details of how to access the event and the protocols that we put in place for safeguarding. On the day the class teacher will use the link we distribute to access the quiz. We will share our screen with the class so that they can see the Kahoot code and the quiz questions. Students will then use their devices to access Kahoot and answer the questions that appear on the classroom screen. For each question the solution is revealed and the students will use the leaderboard for fun!

The link for the event is for the classroom teacher only to display the event and should not be used by individual students.

We will supply certificates for winning teams from each school.

Eligibility

The quiz is only available for Kent or Medway High Schools.

Key Facts

Event ref:	#9263
Audience:	Students
Target year:	Year 8
Curriculum focus:	11-16 maths
