

Modelling with Statistics

Online - zoom

26th January 2022

Overview

In this meeting we will look at how students are expected to apply the statistical content that they have learnt (such as the standard distributions, hypothesis testing and correlation & regression) to modelling questions.

The workshop will be delivered by Paul Chillingworth who is the AMSP Tuition Lead and Statistics Professional Development Lead.

Who will benefit from attending?

All teachers of A level maths will benefit from attending this event.

Materials and Equipment

The session will be remote and will take place on the Zoom platform, as such you will need a laptop/desktop computer or other internet enabled device. If possible please use a machine with a microphone enabled to allow for chat with other delegates.

We will set up the classroom and send you the classroom link, via e-mail, shortly before the session is due to start.

Don't forget to bring your own tea and biscuits!

Key Facts

Event ref:	#9430
Audience:	Teachers
Curriculum focus:	A level Mathematics
Mathematical focus:	Statistics
Event format:	Live Online Professional Development
Event length:	1.5 hours
Region:	Yorkshire and the Humber
Date:	Wed 26th Jan 2022
Course times:	16:30 - 18:00
