

## Milton Keynes KS5 Teacher Network

### Pre-release information for Core Maths exams

1st March 2022

#### Overview

Free professional development and the chance to meet other teachers in the area.

#### Agenda

- Pre-release information for Core Maths 2022 exams
- Ways of using pre-release information
- Past examples of pre-release in assessments
- Possible questions from current information

#### Content

We will look at the pre-release information for the upcoming Core Maths exams and consider how best to use this with students. We will look at past exam series to understand how pre-release information has been used in past assessments. We may create some sample questions to share if the group agrees.

This meeting will be of particular interest to current teachers of Core Maths preparing students for 2022 exams. However, prospective teachers of Core Maths and others are very welcome.

The meeting will take place face-to-face unless circumstances prevent it, in which case the meeting will take place online. If you personally are unable to attend the meeting in-person and would like to join the face-to-face meeting via Zoom, please let me know.

## Key Facts
